This is the complete list of labels currently used by your operators. Under column "label File" you will see the correct label name of the label used Under column " list text" this is what appears on the screen. DO NOT DELETE ANY OF THESE LISTED. As they are being used. Go to C: Program Files/TICKET/Labels. Here you will find the labels listed above and a lot of extras. Delete any label not listed above.

This should leave you with only the label files used.
